Bangkok, Thailand

PROFILE

Dear Hiring Manager,

My name is Boonthanom Hanklang, a DevOps Engineer and System Engineer based in Bangkok, Thailand. I am seeking an opportunity in roles such as DevOps Engineer, System Engineer, or System Administrator.

I have strong expertise in Linux systems including Ubuntu, CentOS, and Red Hat, along with hands-on experience in cloud platforms such as AWS, Azure, and GCP. I am skilled in designing and managing cloud infrastructure, including services like EC2, IAM, Route 53, and RDS, ensuring high availability, scalability, and security.

In my current role, I design and maintain CI/CD pipelines using tools such as Jenkins, GitLab CI/CD, and ArgoCD, supporting agile development workflows. I also specialize in Infrastructure as Code (IaC) using Terraform and CloudFormation, enabling efficient and automated infrastructure provisioning.

I have solid experience with containerization and orchestration technologies, including Docker and Kubernetes, as well as monitoring and observability tools such as Prometheus, Grafana, and ELK Stack. My strengths include system monitoring, incident management, performance tuning, and troubleshooting to minimize downtime and improve system reliability.

With a strong background in DevOps practices, automation, and cloud technologies, I am confident in my ability to contribute effectively to your organization and help drive continuous improvement in your infrastructure and development processes.

Thank you for your consideration.

Best regards,

Boonthanom Hanklang

EXPERIENCE

Devops Engineer

Oct 2023 – Dec 2024

Hydroneo Co., Ltd | Bangkok, Thailand

- Responsibilities: 1. Design, develop, and maintain CI/CD pipelines to automate software deployment processes. 2. EDUCATION

Bachelor

 2001

Rajapaht Ubonratchathani University | Ubon Ratchathani, Thailand

Computer Science and Technology (CST) encompasses the study of computing, information, and automation. It involves developing software, algorithms, and computational tools, as well as understanding the underlying hardware and principles of computation. CST also focuses on the practical application of these principles in areas like artificial intelligence, cybersecurity, and computer networks

SKILLS

AngularJS

LINUX (Redhat, UBUNTU)

IOS OS

Cloud Database (AWS, Azure)

Microsoft SQL

MySQL

NOSQL (MongoDB, Cassandra, Elasticsearch, Hbase, DynamoDB)

Technology, Media & Telecom (TMT)

Professional Services

Infrastructure

LANGUAGES

English  Conversational

OTHER SKILLS & CERTIFICATIONS

== My Skills and Competences ==

Developer: Shell Scripting, JSP,PHP,Java script,Flutter , Dart, HTML5 CSS3 Bootstrap 5

Operating Sytem : Ubuntu, Cent OS, Linux RedHat,Windows 2012, Windows 2019, Hyper V

Server Databases: My-SQL, MS-SQL Server, MongoDB, DynamoDB

Monitoring and Operation Software: Grafana DataDog , Prometheus , Grafana, IBM Tivoli, Open-Source Nagios, HP-Open views (NNM), CA Infrastructure management Solution.

CMS write with PHP language: Word Press, Drupal, Joomla, Open cart, Magento

CMS write with Python language: Django

Editor Tool: nano, edit plus, Netbeans IDE, VS-code

multimedia software tools: TechSmith Snagif, Adobe Photoshop, Sony Vegas Pro, OBS studio Cloud

Computing: Amazon Web Services (AWS), MS-Azure (Azure) , Google Cloud (GCP)

Good knowledge and understanding deploy application on Cloud. Azure, Google Cloud, Amazon Web services good knowledge and understanding App Containerization, Docker/Container/Kubernetes
